Governor – There were two telephone calls today requesting a meeting with you.

1) Mayor Begich called the COS to get a meeting set up with you. Mayor Begich would like this to take place before the session. The COS recommends that this be set the week of January 7 – or if you would like the COS will meet with the Mayor directly. If we decide to schedule a time, I will contact the Mayor's office for an updated topic list.

2) Jim Mulva w/Conoco Phillips would like a telephone call with you tomorrow, Friday, 12.28.07. The topic is COP's ANS Gas Proposal. Joe Balash is aware of this request and would like to bring it up in the 2:00 p.m. meeting this afternoon.

Thanks, Janice

Joe,

FYI, I just advised Beth that all press contacts on the Pt Thomson' litigation should go to Nan Thompson. This is for several reasons;

1. Nan is the DNR' person most up to speed on the technical, legal issues on the Pt Thomson' litigation;

2. This Superior Court decision WILL be appealed to the Supreme Court and therefore we must continue to be careful with what is said about the case;

3. The Superior Crt decision is a BIG win for the State, but, there is a "remand" to DNR embeded in the decision, and we need to be aware of that with whatever is said. Furthermore, we haven't sorted out what this remand requires and what the implication of the remand might be.

Thanks,

Marty

I just wanted to thank you for your kindness in allowing an early dismissal from work on Christmas Eve. That was so very generous of you and very compassionate to our families. Cyndy's and my daughter came to visit us from New York City on that day and it allowed us the opportunity to spend more time with her on a very special day. Cyndy and I appreciate your leadership to our State and we hope that you and your family enjoyed a wonderful Christmas together.
Blessings to you and your family for a joyous Christmas season and a healthy, prosperous New Year.

Respectfully,

It is an honor to be part of the staff of this office. I thank you for your work throughout the State of Alaska supporting the FBCI priorities and mission to improve the well-being of all Alaskans by strengthening and expanding the contributions of faith-based and community initiatives. I wish you and your family's good health, prosperity and the strength to continue your "good works with gladness and singleness of heart." It is through our individual faith and spirituality, prayers and hope that we can help uplift all of our Creator's children. Peace Be With You,

Honorable Ms Palin,

You have made the news here in New York as one of a few fearless politicians, stressing ethics at a time when it is sorely needed. I am incredibly proud to know that a young woman (yourself) has the courage to do what she believes is right in a male dominated, oftentimes corrupt system. Having been involved in local politics I can only imagine how difficult that is at the state level.

I have always maintained that I would support a candidate whose platform differed from mine as long as they were in politics for the right reasons. The country needs more like you and if you ever decide to run nationally, you have my support.

Thank you for being such a positive role model.

PO Box 110001

Dear Governor Palin:

Hi Governor,

I am glad we have a good govenor as yourself to bring your state back in line concerning morals. It takes a good person to bring this subject back to the mainstream. I have learned over the years that money talks even when it is unlawful to take bribes and kickbacks. Anyone from your state should be very happy to have such an outstanding leader, family values, and work ethics as you do. Wow, our state even locked the Speaker of the House up for bribes, etc. (North Carolina.) Wishing you all the blessings god can give. Come on and run in N.C.

Governor Palin,

It is with great interest that I follow your current term as Governor of the Great State of Alaska. Any time you would like to come to Massachusetts and run for governor, I'll be the first one here to shake your hand and give total support.

We need somebody here to deal with the "good ole boy network". I campaigned for Governor Duval Patrick and I am sorry to say I am totally disappointed. If changes have occured, there not for the better. Maybe you could show him how to get things done.

God Bless you and your family, continue with your great work.

Dear Governor Palin,

I read an interesting article about you on Yahoo this evening concerning your recent legislative achievements including raising taxes on Big Oil and your courageous ethics probes. While I'm hardly a constiuent, and am a registered Independent that tends to vote Democratic, I have to say that you might possibly be the only Republican I'd EVER consider voting for...keep up the good work. If we're ever going to turn this country back around and restore at least a semblance of credibility to the electoral process, it'll be in large part due to the efforts of public servants like yourself.

Just to let you know, I did an end of the year interview with Robert = Dillon for an article that might appear in this Sunday's Fairbanks News = Miner.

I briefly covered 19 issues ranging from federal appropriations to = the governor's recent comments on cruise ships. Part of the = discussion related to decisions made by congress or federal agencies this = year, and part concerned preparations for issues that may materialize= in 2008.

Regarding 2007, I said that despite our apprehensions early in the = year, Alaska did well - some good successes and no significant defeats.&nbs= p; I observed that since 2008 is an election year, outcomes are more = difficult to predict. In all instances, I stuck to the facts, = no editorial comment, except to say that the governor and congressional = delegation are working well together on pending issues.

If Dillon gets things right, and he usually does, I think the article = will describe good work by the Palin Administration on federal issues = in DC. If you need more, please let me know.

Subject: Happy New Year!

Dear Governor Palin,

Lona and I hope that you had a very Merry Christmas and are asking that you have a Happy New Year. I just finished reading the article about you in the Spokesman-Review and am very pleased. You are making a dramatic change in Alaska in standing for ethics and what is right and not letting the "political correct" have its way.

As an example, we have an antique/vintage/home décor shop in Oldtown, Idaho which is 1 block away from Newport, Washington. Over this Christmas season I have wished everyone a Merry Christmas as that is what the season is all about, the birth of Jesus. It is amazing the responses I get of which the most are that people would like to continue with the old tradition of Merry Christmas instead of a Family Tree or Holiday Tree or whatever other nonsense there is. My saying for many years now is that if it is political correct, it is probably 99.9% biblically and morally wrong.

I may have told you this in previous emails, but I feel the same about fish and wildlife, especially after being an Alaska State Trooper and also a Fish and Wildlife Officer, and that is if the politicians and the environmentalists would not interfere with the wolf, grizzly bear, whales, salmon issues, etc , with money, power, greed and control and trying to get votes for the next election, but do what is right and let the Fish and Game Management manage the Game and Wildlife as they have been taught to do without any personal gain of their own, I don't believe there would ever be a problem of over/under fishing or hunting or whatever the case may be. To many people want to have their hands in the pie that don't need to be involved and a lot of the reason is for power, greed and control. That is why our fuel situation is the way it is today – power, greed and control and absolutely no excuse for it.

My heart still goes out to Alaska and all the people that live there, especially the natives. It goes way back to my childhood and if there was a way that I could help them – I would. I am sure a lot of it is when I was a State Trooper in Kodiak and the Alaska Peninsula.

I am not sure how long I will be in the real estate market. I have been in it less than a year and find it very cutthroat and greedy. There are a lot of classes on ethics but very seldom followed. It is very hard

for me to sell something that is over-priced to begin with. It is also hard for me to see people losing their homes to foreclosure, and yes it could be their fault as well because they over-extended but just the same they are going through a very difficult financial time and then other people who are picking up the foreclosures and are getting rich off them. It is not right and something needs to be done about both sides of that situation.

I am very proud of you and your staff for making some strong stands and not being swayed to the right or left for whatever might come against you, but staying true for what is right and moral for the State of Alaska and the people of Alaska. I wish that more states would follow example.

As you look to the Lord in everything, may He give you His wisdom, strength, comfort, joy, peace and may His love be shown through you on a daily basis in everything and wherever you are. Blessings to you, your family, staff and the people of Alaska, John and Lona Bockemuehl

On the edge of downtown Detroit, just east of the Chrysler Freeway and not far from Detroit's still-troubled neighborhoods, lies Lafayette Park, one of the nation's most beautiful -- and most obscure -- residential developments. Composed of three sections -- a high-rise apartment building and 21 multiple-unit townhouses on the western border, 13 acres of landscaping down the center, and twin apartment towers on the east -- Lafayette Park holds the largest collection of buildings in the world designed by Ludwig Mies van der Rohe. . .

Channel 2 and the AP ran short stories on the issue of the Feds proposed change in the cruise ship rules. Our letter opposing the rule change was mentioned. So far, Governors of Maine, Florida, and California and our congressional delegation have also sent in comments opposing the rule change.

Status at this point is that LAW has an attorney reviewing the rule change and the procedure used by the Feds to propose the change. We should have results from that research in 2-3 weeks.

Subject: Telephone Calls

Governor – There were two telephone calls today requesting a meeting with you.

1) Mayor Begich called the COS to get a meeting set up with you. Mayor Begich would like this to take place before the session. The COS recommends that this be set the week of January 7 – or if you would like the COS will meet with the Mayor directly. If we decide to schedule a time, I will contact the Mayor's office for an updated topic list.
2) Jim Mulva w/Conoco Phillips would like a telephone call with you tomorrow, Friday, 12.28.07. The topic is COP's ANS Gas Proposal. Joe Balash is aware of this request and would like to bring it up in the 2:00 p.m. meeting this afternoon.

Thanks, Janice

Yes. It appears to be very good for the state, but we have some homework to do to completely understand it.

Joe,

FYI, I just advised Beth that all press contacts on the Pt Thomson' litigation should go to Nan Thompson. This is for several reasons;

1. Nan is the DNR' person most up to speed on the technical, legal issues on the Pt Thomson' litigation;

2. This Superior Court decision WILL be appealed to the Supreme Court and therefore we must continue to be careful with what is said about the case;

3. The Superior Crt decision is a BIG win for the State, but, there is a "remand" to DNR embeded in the decision, and we need to be aware of that with whatever is said. Furthermore, we haven't sorted out what this remand requires and what the implication of the remand might be.

Thanks,

Marty
